

- **Legendary E390L silage-specific performance with Roundup Ready® Corn 2 ease and herbicide safety.**
- 98 day maturity. Industry-leading silage genetics for optimal yield and forage quality.
- Fiber genetically programmed for high digestibility.
- Soft rumen available starch – very digestible.
- Elevated sugar content in forage.
- Excellent performance history from central PA to Canadian border including New England where the maturity fits well.
- Total silage genetic package to optimize milk-per-acre where Roundup® is the herbicide choice.

Always read and follow pesticide label directions. Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® brand agricultural herbicides. Roundup® brand herbicides will kill crops that are not tolerant to glyphosate.
