CONQUEROR III

Straightneck Squash

KEY CHARACTERISTICS

- Conqueror III is a green-stem, straight neck squash that produces uniform fruit of a creamy, yellow color. Its combination of a conventional disease package and strong transgenic resistance gives growers additional peace of mind when planting this variety.

Relative Maturity	Shape	Color	Plant Type
41 Days	Straightneck	Yellow, Green Stem	Vigorous

DISEASE RESISTANCES (HR=High Resistance, IR = Intermediate Resistance)

- HR: CMV, WMV, ZYMV
- IR: PRSV
