

CABBAGE

Better Genetics.
Better Productivity.
Better Profitability.

KALUGA

120 Day - Green Storage Hybrids

KEY CHARACTERISTICS

- For markets requiring a storage cabbage with a small, perfectly round and dense head, Kaluga fits the bill. It does require a long season, about 120 days from transplant. It weighs 2.25 lb. and is suitable for long term storage.

Relative Maturity	Head Description	Shape	Use
120 Days	2.25 lbs	Round Dense	Very Long Storage
