**SEEDWAY®**  
**SW 8642V (E-Z)**

Relative Maturity  
**86 Days**

- New hybrid for the absolute shortest-season Northeast markets.
- Top end grain yields for an early maturity and lower ear placement.
- Good sized plant with dark green, wide leaves for silage use.
- Girthy ears with flex that adapt to different plant populations.
- Strong out of the ground for early planting in cool soils.
- Viptera trait fights off Western Bean Cutworm, Corn Earworm, and Black Cutworm.

## INSECT RESISTANCE MANAGEMENT® STATEMENT

Before opening a bag of seed, be sure to read and understand the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with those stewardship requirements.

**Bayer Company is a member of Excellence Through Stewardship® (ETS).** Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product.
