Relative Maturity
93 Days

- Big and brawny hybrid with non-stop performance in the field and in the bunk.
- A real standout for silage with premium tonnage plus an enviable fiber and starch package.
- Shells out a lot of bushels of grain and produces energy-rich feed to make a lot of milk.
- A shanky, large-eared hybrid with deep kernels and small cob that really shows its stuff.
- Fast out of the ground for early planting and superior intactness right through harvest.
- Fights off Northern Corn Leaf Blight with a SmartStax® version also available.

SEED CORN TECHNOLOGY

INSECT RESISTANCE MANAGEMENT® STATEMENT

Before opening a bag of seed, be sure to read and understand the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with those stewardship requirements.

Bayer Company is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product.
