- High caliber genetics adapted to Northeast growing conditions.
- Outstanding yields of grain and silage with softer kernel texture for superior feed quality.
- Massive ears on a big plant and relatively lower ear placement for the size of the plant.
- Ears have a lot of flex and adapt to lower plant populations to maintain yield.
- Flowers late and dries down fast do don't push the hybrid north.
- Trecepta® technology fights off Western Bean Cutworm, Corn Earworm, and Black Cutworm.
