

// PLANT. HARVEST. PROFIT.

RELATIVE MATURITY
114 DAYS

SW 1421VT (RIB)

VT Double PRO® RIB Complete®

A recent introduction that is really coming into its own, especially on the high-yield grain acre. On field after field, this one shells out the maximum bushels possible and does it with style. The longer, slenderer ear with flex dries down quickly to produce high test weight grain at harvest. The tall plant fills silos quickly with a lot of grain-rich silage. Boasts an impressive health package to combat Northern Corn Leaf Blight, Gray Leaf Spot, Anthracnose Stalk Rot, Southern Corn Leaf Blight, and even Tar Spot. Only available in a VT Double PRO® RIB Complete® technology trait package so use where Corn Rootworm is not a concern.

// POSITIONING AND MANAGEMENT

SEED CORN TECHNOLOGY

INSECT RESISTANCE MANAGEMENT® STATEMENT

Before opening a bag of seed, be sure to read and understand the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with those stewardship requirements.

Bayer Company is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. B.t. products may not yet be registered in all states. Check with your representative for the registration status in your state.

IMPORTANT IRM INFORMATION: Certain products are sold as RIB Complete® corn blend products, and do not require the planting of a structured refuge except in the Cotton-Growing Area where corn earworm is a significant pest. Products sold without refuge in the bag (non-RIB Complete) require the planting of a structured refuge. See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.

Roundup Ready® 2 Technology contain genes that confer tolerance to glyphosate. **Glyphosate** will kill crops that are not tolerant to glyphosate. **Herculex®** is a registered trademark of Dow AgroSciences LLC. **LibertyLink®** and the **Water Droplet Design®** is a trademark of BASF Corporation. **Respect the Refuge and Corn Design®** and **Respect the Refuge®** are registered trademarks of National Corn Growers Association. **RIB Complete®, Roundup Ready 2 Technology and Design™, Roundup Ready®, SmartStax®, Trecepta®, and VT Double PRO®** are trademarks of Bayer Group.

Insect control technology provided by Vip3A is utilized under license from Syngenta Crop Protection AG. **Agrisure Viptera®** is a registered trademark of a Syngenta group company.

More information about Duracade® is available at <http://www.biotradestatus.com/>.

Before opening a bag of seed, be sure to read and understand the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with those stewardship requirements.

Important: Always read and follow label and bag tag instructions; only those labeled as tolerant to glufosinate may be sprayed with glufosinate ammonium based herbicides.

Agrisure®, Agrisure Viptera®, Artesian®, Duracade®, DuracadeViptera™, Viptera®, and E-Z Refuge® are trademarks of a Syngenta Group Company.

Seed products with the **LibertyLink® (LL)** trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, postemergent weed control of **Liberty®** herbicide for optimum yield and excellent weed control. **LibertyLink®, Liberty® and the Water Droplet logo** are registered trademarks of BASF.

Corn Trait Technology incorporated into these seeds is commercialized under license from Syngenta Seeds, LLC. **Herculex® Technology** incorporated into these seeds is commercialized under license from Corteva Agriscience, LLC. **HERCULEX® and the HERCULEX Shield** are trademarks of Corteva Agriscience, LLC.
