

RELATIVE MATURITY

SW 9696

Conventional / Organic

More of a grain focused hybrid with consistent performance in field after field. Uniform ear development down the row, lower ear placement and superior tip fill. Reliable standability, rapid grain drydown and superior test weight. Strong emergence in the spring and holds together late into the fall. Adapted to a wide range of soil types and productivity levels and good on stress. Moves both north and south of zone. Roundup Ready® Corn 2 version available.
