

PLANT. HARVEST. PROFIT.

## SEEDWAY® SW 1188SS (RIB)

Relative Maturity  
111 Days

**SmartStax®**  
RIB COMPLETE

- A great crossover hybrid producing abundant harvests of high quality grain and silage.
- Longer ears with good girth, deep kernels, and a smaller cob.
- Superior husk coverage helps protect against bird damage on acres at risk.
- Push this one with top management for maximum performance.
- Dependable drydown going North and takes the heat moving South.
- Offers a strong overall health package and fights of Southern Corn Leaf Blight plus Southern Rust.

### TECHNOLOGY TRAITS

SmartStax® RIB Complete®  
(5% RIB Refuge)

### ABOVE GROUND INSECT PROTECTION

European Corn Borer, Fall Armyworm,  
Corn Earworm

### BELOW GROUND INSECT PROTECTION

Corn Rootworm

### HERBICIDE TOLERANCE

Glyphosate & Glufosinate

| PLANT CHARACTERISTICS |                          |
|-----------------------|--------------------------|
| Silage Yield          | Excellent                |
| Plant Height          | Tall                     |
| Leafiness             | Very Good / More Upright |
| Staygreen             | Very Good                |
| Fall Appearance       | Very Good                |
| Fiber Profile         | Very Good / Excellent    |
| Starch Profile        | Very Good / Excellent    |
| Early Vigor           | Very Good                |
| Standability          | Very Good / Excellent    |

| EAR CHARACTERISTICS |                        |
|---------------------|------------------------|
| Grain Yield         | Excellent              |
| Ear Height          | Medium / Medium High   |
| Ear Type            | Semi - Flex            |
| Ear Size & Shape    | Longer With Good Girth |
| Tip Fill            | Fair / Good            |
| Husk Cover          | Excellent              |
| Grain Drydown       | Excellent              |
| Test Weight         | Very Good / Excellent  |

| DISEASE RATINGS           |                       |
|---------------------------|-----------------------|
| Northern Corn Leaf Blight | Very Good             |
| Gray Leaf Spot            | Very Good             |
| Anthraxnose Stalk Rot     | Very Good / Excellent |

| POSITIONING AND MANAGEMENT |                      |
|----------------------------|----------------------|
| High Yield Acre            | 1                    |
| Moderate Yield Acre        | 1.5                  |
| Lower Yield Acre           | 2                    |
| Stress Tolerance           | 2                    |
| Early Planting             | 2                    |
| Heavy Soils                | 1.5                  |
| Loamy Soils                | 1                    |
| Light Soils                | 2                    |
| Plant Population           | Medium / Medium High |
| Moves North of Zone        | Recommended          |
| Moves South of Zone        | Recommended          |

# SEED CORN TECHNOLOGY

## INSECT RESISTANCE MANAGEMENT® STATEMENT

Before opening a bag of seed, be sure to read and understand the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with those stewardship requirements.

**Bayer Company is a member of Excellence Through Stewardship® (ETS).** Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

**ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. B.t. products** may not yet be registered in all states. Check with your representative for the registration status in your state.

**IMPORTANT IRM INFORMATION: RIB Complete®** corn blend products do not require the planting of a structured refuge except in the Cotton-Growing Area where corn earworm is a significant pest. **See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.**

**Roundup Ready® 2 Technology** contain genes that confer tolerance to glyphosate. **Glyphosate** will kill crops that are not tolerant to glyphosate. **Herculex®** is a registered trademark of Dow AgroSciences LLC. **LibertyLink®** and the Water Droplet Design® is a trademark of BASF Corporation. **Respect the Refuge and Corn Design®** and **Respect the Refuge®** are registered trademarks of National Corn Growers Association. **RIB Complete®, Roundup Ready 2 Technology and Design™, Roundup Ready®, SmartStax®, Trecepta®, and VT Double PRO®** are trademarks of Bayer Group.

Insect control technology provided by Vip3A is utilized under license from Syngenta Crop Protection AG. **Agrisure Viptera®** is a registered trademark of a Syngenta group company.

More information about **Agrisure Duracade®** is available at <http://www.biotradestatus.com/>.

Before opening a bag of seed, be sure to read and understand the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with those stewardship requirements.

**Important: Always read and follow label and bag tag instructions; only those labeled as tolerant to glufosinate may be sprayed with glufosinate ammonium based herbicides.**

**Agrisure®, Agrisure Duracade®, Agrisure Viptera® and E-Z Refuge®** are registered trademarks of a Syngenta Group Company.

Seed products with the **LibertyLink® (LL)** trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, postemergent weed control of **Liberty®** herbicide for optimum yield and excellent weed control. **LibertyLink®, Liberty® and the Water Droplet logo** are registered trademarks of BASF.

**Agrisure® Corn Trait Technology** incorporated into these seeds is commercialized under license from Syngenta Seeds, LLC. **Herculex® Technology** incorporated into these seeds is commercialized under license from Corteva Agriscience, LLC. **HERCULEX® and the HERCULEX Shield** are trademarks of Corteva Agriscience, LLC.
