*VT Double PRO® RIB Complete®*

Super strong emergence and early growth get this hybrid off to a great start ahead of the pack making it a great choice for early planting and chilled soils. Strong yielder of good quality grain with dependable standability. A longer ear with good girth and flex so it can handle fields with lower plant populations plus, husks that flare open to ensure reliable grain drydown. Solid forage package with both yield and quality. Holds up well under drought and stress and is a good choice for the tough acre. Only available in a VT Double PRO® RIB Complete® technology trait package so use where Corn Rootworm is not a concern.

## INSECT RESISTANCE MANAGEMENT® STATEMENT

Before opening a bag of seed, be sure to read and understand the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with those stewardship requirements.

**Bayer Company is a member of Excellence Through Stewardship® (ETS).** Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product.
