GOLDEN CRISP

Triplaid Seedless - Yellow Flesh

KEY CHARACTERISTICS

Golden Crisp is a large seedless, firm flesh, yellow watermelon variety. The fruit boasts a remarkable bright yellow flesh and a dark green rind, which easily distinguishes the fruit from other red seedless varieties. This dynamic variety brings value and flexibility to growers' watermelon programs. It is a dual-purpose variety, which delivers the benefits of firm flesh suitable for both fresh cut programs and whole fruit markets.

Relative Maturity	Weight	Flesh Color	Rind	Shape
