SmartStax®PRO with RNAi Technology

Spotlighting the new SmartStax®PRO with RNAi Technology in 105 RM genetics that combines the proven above and below ground insect protection of SmartStax® plus an additional mode of action against Corn Rootworm using RNAi technology. A good-sized plant with a more moderate ear height and an ear that is girthy with some flex. Superior test weight plus healthy stalks support late-season standability for the grain grower and a good choice for corn on corn ground. A powerful overall plant health package including Gray Leaf Spot, Northern Corn Leaf Blight and Anthracnose Stalk Rot. Adapted to all yield conditions, but shines on the more moderate yield acre in zone and north with good drought tolerance.

SmartStax®PRO
With RNAi TECHNOLOGY

// POSITIONING AND MANAGEMENT

HIGH YIELD ACRE	7	LOAMY SOILS	9
MODERATE YIELD ACRE	9	LIGHT SOILS	7
LOWER YIELD ACRE	7	PLANT POPULATION	M/MH
STRESS TOLERANCE	6	MOVES NORTH OF ZONE	YES
EARLY PLANTING	7	MOVES SOUTH OF ZONE	NO
HEAVY SOILS	7		

KEY

9 = BEST
NR = NOT RATED

T = TALL
M = MEDIUM
MT = MEDIUM TALL

MH = MEDIUM HIGH
ML = MEDIUM LOW

Cow Head: This denotes varieties are proven, reliable silage hybrids.
