PowerCore®Enlist®Refuge Advanced

A PowerCore®Enlist® standout in 2023 SEEDWAY Research Trials with the highest yield for maturity in its class out of more than 50 hybrids. A fairly tall, leafy plant with a pretty large, flexy ear that makes a top-notch choice for either grain or silage use. Excels on highly productive ground and adapts to lower plant populations to maintain high yield. Good resistance to Northern Corn Leaf Blight plus the ability to move south of zone and compete with later maturity hybrids. Fends off above-ground insects plus the flexibility of using glyphosate, glufosinate, 2,4-D choline and FOPS herbicides.
