

COVER CROP MIXES

SW-SI SOIL IMPROVEMENT 2.0 MIXTURE

- Recycles nutrients that would have been lost to leaching and runoff
- Improves soil permeability for increased air and water penetration
- Fixes significant atmospheric nitrogen for increased soil nitrogen levels
- Improves soil organic matter
- Is widely adapted where soil erosion is an issue
- Seeding Rate: 50 lbs. per acre.

MIXTURE COMPONENTS

Peas	70%
Common Vetch	20%
Lentils	10%
