

RELATIVE MATURITY 102 DAYS

SW 0256gt

NEW FOR 2025!

Agrisure®GT

For growers focused solely on glyphosate resistance without the need for insect protection, this new 102 RM hybrid stands out as a premier choice, effortlessly combining high grain yields and heavy test weights. Its tall, robust structure not only enhances visual appeal but also results in impressive tonnage and exceptional starch quality, making it a valuable asset for dairy producers. Moreover, its strong root and stalk characteristics, along with resistance to disease threats like Northern Corn Leaf Blight and Gray Leaf Spot ensures a healthy crop late into the season and a stress-free harvest. Overall, this new 102 RM hybrid is a smart investment for those seeking reliable productivity and quality.
