

// PLANT. HARVEST. PROFIT.

RELATIVE MATURITY
112 DAYS**SW 1223****NEW FOR 2025!***Organic / Conventional/PowerCore®Enlist® Refuge Advanced*

We are thrilled to introduce a new organic hybrid to our collection, showcasing outstanding yield potential for both grain and silage. Its full flex ear allows for impressive yields even at moderate and lower planting densities. This hybrid boasts a robust disease resistance package, with notable tolerance to Gray Leaf Spot, Tar Spot, and Diplodia Ear Mold. With excellent staygreen and strong late-season plant health, it supports high tonnage yields making it a favorite with dairy producers. Adaptable to all yielding acres and responds to enhanced crop management.

// PLANT CHARACTERISTICS
