

// PLANT. HARVEST. PROFIT.

RELATIVE MATURITY
114 DAYS**SW 1456GT***Glyphosate® + Artesian®*

For growers operating on low-yielding acres where insect protection isn't a concern, this glyphosate resistant hybrid presents an excellent choice. Known for its remarkable emergence and vigorous early growth, it establishes itself quickly, setting the stage for a prosperous growing season. Dairy producers will appreciate its ability to deliver high-quality tonnage, ensuring a profitable harvest. One standout feature is its strong staygreen characteristics, which provides an extended harvest window. This hybrid showcases good resistance to Gray Leaf Spot and Tar Spot, reducing the need for late-season disease management. This resilience not only simplifies the farming process but also extends the potential for successful yields.

// POSITIONING AND MANAGEMENT

HIGH YIELD ACRE	7	LOAMY SOILS	9
MODERATE YIELD ACRE	8	LIGHT SOILS	7
LOWER YIELD ACRE	8	PLANT POPULATION	M
STRESS TOLERANCE	6	MOVES NORTH OF ZONE	YES
EARLY PLANTING	7	MOVES SOUTH OF ZONE	YES
HEAVY SOILS	7		

KEY9 = BEST
