SW 1488TR (RIB)

NEW FOR 2025!

Trecepta®RIB Complete

Everyone is talking about this hot, new hybrid. This standout variety delivers exceptional yield potential backed by proven, resilient genetics—ideal for both grain and silage. With a robust agronomic package featuring strong stalks, deep roots, and impressive test weight, it offers reliability from the ground up. What sets it apart? Outstanding yields and unmatched silage quality. Expect high starch levels, excellent fiber digestibility, and the nutritional power needed to drive top-tier milk production. And while it thrives under standard conditions, this hybrid truly shines under pressure—outperforming the competition when drought and heat hit hardest. Looking forward to seeing this in your fields this year. Only available in a Trecepta® RIB Complete trait package so use where Corn
