

// PLANT. HARVEST. PROFIT.

RELATIVE MATURITY
116 DAYS**SW 1676****NEW FOR 2025!***Conventional*

Introducing our latest full season hybrid, specifically bred for the mid and deep south markets! This exceptional hybrid promises top-end yields for both grain and silage applications, making it a versatile choice for farmers looking to maximize their productivity. With notably high test weight grain, this tall statured hybrid boasts strong stalks ensuring excellent late season standability. Its full flex ear allows for impressive yields, even at lower planting populations, providing you with flexibility and reliability in your farming practices. Moreover, this hybrid is particularly resistant to common threats such as Gray Leaf Spot, Southern Rust, and Anthracnose Stalk Rot, ensuring that your crops remain healthy and robust throughout the growing season. Don't miss out on the opportunity to elevate your farming game with this outstanding hybrid. Choose this hybrid for unparalleled performance and resilience!
