**GTO**

Fresh Market Determinate

## KEY CHARACTERISTICS

GTO (STM9745) is a first-early, determinate red salad tomato variety that matures about 60 days after transplanting. It produces extra-large, globe-shaped, crimson-red fruits with good firmness and flavor, ideal for vine-ripe and roadside markets. The plant is moderately vigorous, well-covered, and disease-resistant, performing well in open field or high-tunnel systems across cold to hot conditions.

Relative Maturity	Weight	Plant Type	Shape
65 Days	10-14 oz.	Medium, good cover	Globe

**DISEASE RESISTANCES (HR=High Resistance, IR = Intermediate Resistance)**
