

// PLANT. HARVEST. PROFIT.

RELATIVE MATURITY
101 DAYS**SW 0167SP (RIB)****NEW FOR 2025!****SmartStax[®]PRO RIB Complete[®]**

This new product performed near the top of 2024 SEEDWAY trials in its maturity, weighing out even more than SW 0030SS and broadens our SmartStax[®]PRO lineup into 101 RM. The kernels on the semideterminant ears dry down rapidly producing a lot of bushels of high-quality grain on a more intact plant. Can really put out the tons of grain-rich, high-energy silage for the dairy producer that fit a wide swath of growing conditions across the Northeast. Superior tolerance to Northern Corn Leaf Blight with excellent ratings for Anthracnose Stalk Rot. Also fights off both Southern Corn Leaf Blight and Southern Rust going south. Adapted to all yield environments; low, medium and high; plus moves south of zone and good on drought. A great option for continuous corn on corn rotations.

SmartStax[®]PRO
with RNAi TECHNOLOGY**// POSITIONING AND MANAGEMENT**

HIGH YIELD ACRE	8	LOAMY SOILS	8
MODERATE YIELD ACRE	8	LIGHT SOILS	7
LOWER YIELD ACRE	8	PLANT POPULATION	M
STRESS TOLERANCE	7	MOVES NORTH OF ZONE	YES
EARLY PLANTING	6	MOVES SOUTH OF ZONE	YES
HEAVY SOILS	7		

KEY9 = BEST
NR = NOT RATEDVT= VERY TALL
T = TALL
MT = MEDIUM TALL
M= MEDIUMMH = MEDIUM HIGH
ML = MEDIUM LOW

Cow Head: This denotes varieties are proven, reliable silage hybrids.
