

// PLANT. HARVEST. PROFIT.

RELATIVE MATURITY  
**94 DAYS****SW 9456GT****NEW FOR 2026!***Glyphosate Tolerant*

A rugged hybrid that showcases its ability to handle stress and variable soils. Very good late season health lends this hybrid to be a nice grain option, with husks that flare open for a nice quick dry down. Great option for silage acres and shows its strenghts on the tougher acre but be mindful there is no insect control, glyphosate tolerant only version available.

## // PLANT CHARACTERISTICS

SILAGE YIELD	7
PLANT HEIGHT	MT
LEAFINESS	7
STAYGREEN	6
FALL APPEARANCE	8
