VT4PRO™ RIB Complete®

Top-end performer built for moderate to high-yielding acres, this tall hybrid with a semi-flex ear delivers strong tonnage and consistently high grain yield potential. It produces first-rate feed quality with an excellent fiber profile and elevated starch levels, supporting superior ration value. An outstanding foliar disease resistance package, along with tolerance to Anthracnose Stalk Rot and Diplodia Ear Mold, helps protect plant health throughout the season. With excellent late season standability and intactness, it stays strong through harvest for easier field management and dependable results.
